

During the first week of April my wife and I had to make a trip from Montana to Michigan for a death in the family. When you are in the middle of now where, XM radio really shines! With out it we would have been out of luck for music news and weather. While still many miles out side of Chicago and Detroit we were able to listen to the cities weather and traffic and in the case of Detroit we were able to chnage our route miles from the city BUT ONLY BECAUSE OF THE TRAFFIC REPORT ON XM RADIO. As far as we were from Detroit we couln not possibly recieve an FM station from the city, and further which station would I tune to?? I don't live there, but XM radio solved that problem for us. NAB desire to limit XM radio should be stopped.
Thank you.
